

APPLICATION GUIDE - OFFICE

A single MZ-280Q is configured to run two zones for a meeting/showroom and the entrance foyer/rest rooms. A mixture of TNi-C and TNi-W 100V loudspeakers and TNA-1200S-G2 passive subwoofers to fill in the bottom end are included. MZ-C2 wall panels control levels and source select. A single MZ-140D could be used if passive subwoofers are not required.

- Two 100V Zones of upto 280W each
- Two 8 ohm Lo-Z Zones running passive subwoofers
- Independent wall controllers in each zone with source select
- Mic with Priority for announcements
- Fire system integration
- Full selection of audio inputs
